To Whom It May Concern:

This letter is to inform you that all Maxtec[®] analyzers and monitors listed below are completely latex-free and do not contain mercury:

*OM-25A	*MAX02+A	*HANDI [™]
OM-25AE	MAX02+AE	Max-250, 250E, 250+
OM-25ME	*MaxVenturi	
OM-25MEL	*MaxBlend	

* These analyzers include a PVC tube that is used when measuring oxygen concentration levels output from a concentrator. This tube should never come into contact with patients. The tube is constructed of PVC and contains DEHP.

Should there be any questions or concerns regarding the above statement, please feel free to contact Maxtec[®] at 1-800-748-5355 or (801) 266-5300.

Thank you,

Maxtec[®] Inc.
